Marina Chursanova

Alumna FMF 2006. Associate Professor of General Physics and Solid State Physics, Candidate of Physical and Mathematical Sciences, a doctoral student "KPI". During graduate school was an intern at the International Center for Theoretical Physics. A. Salam, Trieste, Italy at the center of an international program initiatives. Conducts research in the field of Raman spectroscopy. Active participant in the international scientific conferences.

Vladimir Pecherny

Principal analyst of application software, Information Centre of the Ministry of Social Policy of Ukraine. Thesis: The emergence, development and disappearance of deterministic chaos in the pendulum i elektropruznihi systems with limited excitation (01.05.02 - mathematical modeling and computational methods (engineering)), and the year - 2011.

Sergey Yushchuk

Programmer American company SysIQ. The winner of the All-Ukrainian Programming Contest Facebook Hackathon. Presented by our faculty in international competitions in California.

Malovichko Tatiana

FMF 2004 graduate of Physical and Mathematical Sciences, senior lecturer in mathematical analysis and probability theory FMF.

Olga Kerita

Graduate student and lecturer of the Department of General Physics and Solid State Physics. Active participant in the international scientific conferences.

Dmitry Polishchuk

Graduate student. The winner of the All-Ukrainian competition zavtra.ua. Pinchuk Foundation received a scholarship.

Svetlana Torous

Candidate F.-M. Sciences, Assistant of the Department of General Physics and Solid State Physics. An internship (4 months) at LANL as a member of joint research in the field of optical communications in a turbulent atmosphere.

Vasilij Stanislavchuk

Programmer American company DjangoStars. The winner of the All-Ukrainian Programming Contest Facebook Hackathon. Presented by our faculty in international competitions in California.

Olga Gladiy

Received a master's degree at the University of Maine in Le Mans (France) double-diploma program

Ovcharenko Elena

Alumna FMF 2008. Candidate of Physical and Mathematical Sciences, assistant of the department of mathematical analysis and probability theory FMF, winner of the "Queen of the CPI." Curator of the project "Diploma of the European sample" for FMF (specialty "mathematics").

Prokhorenko Natalia

FMF 2006 graduate of Physical and Mathematical Sciences, senior lecturer in mathematical analysis and probability theory FMF. In 2010. received an international grant to conduct joint research in the field of probability theory with German colleagues.

Simchuk Yaroslav V.

FMF 2004 graduate of Physical and Mathematical Sciences Senior Lecturer, Department of Mathematical Analysis and Probability FMF. The curator of the department of pre-university training FMF

Orlovsky Igor

FMF 2002 graduate of Physical and Mathematical Sciences, assistant professor of mathematical analysis and probability theory FMF. Head of student circle "Custom Olympiad problems and algebra and analysis." Member of the jury All-Ukrainian Mathematical Olympiads.

Neduzha Oksana Y.

FMF 2013 graduate of Master of the department of mathematical analysis and probability theory FMF. The winner of the II-th round of the All-Ukrainian competition of student research papers in the field of "Mathematical Sciences" in 2013.
